HSK 3+ Vocabulary

Words from the text above that are HSK level 3 or higher.

Word	Pinyin	Explanation
战斗 HSK5	zhàndòu	‘Battle, combat; to fight’ — used here half-jokingly in 战斗准备 (‘battle-ready’) as an exaggerated parallel to 心理准备 (‘mentally ready’).
害怕 HSK3	hàipà	‘To be afraid, scared’ — a plain, common adjective/verb for fear, usable on its own or with a following clause.
信心 HSK4	xìnxīn	‘Confidence’ — common in 有信心 (‘to have confidence’) and 对…有信心 (‘to have confidence in…’).
照顾 HSK3	zhàogù	‘To take care of, look after’ — used for people (patients, children, the elderly); compare 照看 (to watch over) and 照料 (more formal ‘to attend to’).
病房 HSK4	bìngfáng	‘(Hospital) ward’ — 重症病房 = ‘intensive care unit / critical care ward’, literally ‘severe-illness ward’.
任务 HSK4	rènwu	‘Task, mission, assignment’ — can be a job task or, as here, a hyperbolic ‘mission’ (raising three kids).
艰巨 HSK6	jiānjù	‘Arduous, formidable’ — describes a heavy, demanding task; more literary/serious in register than 难 (‘difficult’).
比喻 HSK5	bǐyù	‘Metaphor, analogy; to compare to’ — both the noun (a figure of speech) and the verb (to liken one thing to another).
一点…都没有 grammar	yìdiǎn…dōu méiyǒu	Emphatic negation pattern: ‘not even a little bit of…’. 一点 (‘a bit’) + 都 (‘even’) + 没有 (‘don't have’) — stronger than plain 没有.
想象力 HSK5	xiǎngxiànglì	‘Imagination, imaginative power’ — 想象 (‘to imagine’) + 力 (‘power/capacity’), the standard word for the faculty of imagination.
诗意 HSK6	shīyì	‘Poetic quality/flavor’ — 诗 (poem) + 意 (meaning/flavor); describes something evocative or lyrical, not literally a poem.
伟大 HSK4	wěidà	‘Great, mighty, grand’ — used for people, achievements, or (as here) abstract things like love; a strong, admiring word, not casual praise.
光辉 HSK6	guānghuī	‘Radiance, glorious brilliance’ — literary word for a shining, glorious quality; common in set phrases praising something as illustrious.
