HSK 3+ Vocabulary

Words from the text above that are HSK level 3 or higher (levels approximate).

Word	Pinyin	Explanation
纯正 HSK6	chúnzhèng	'Pure / authentic' (of language, flavor, etc.): 纯正的中文 = 'proper, unaccented Chinese'. Stronger than 标准 (standard) — 纯正 stresses freedom from mixing-in of other influences.
记住 HSK4	jìzhù	'To remember, keep in mind' — 住 here is a resultative complement meaning 'firmly, securely'. 记住了 is a stock parental command, like 'got that?'
不许 HSK4	bùxǔ	'Not allowed to': blunter and more parental than 不可以/不能. 不许 + verb, often in commands: 不许哭, 不许说话.
当着 grammar	dāngzhe	'In front of / to someone's face': 当着弟弟 = 'in front of little brother'. Opposite of 背着 (behind someone's back, without them knowing).
听见 HSK3	tīngjiàn	'To hear' — 见 is a resultative complement marking that the perception actually registered. Compare plain 听 (to listen), which doesn't guarantee anything was heard.
收到 HSK4	shōudào	Literally 'received' (a signal, letter, etc.); used here colloquially as 'Roger / got it', echoing military radio-speak — similar in feel to 明白了.
家伙 HSK5	jiāhuo	'Guy, fellow, thing' — casual and slightly dismissive; can refer to people, animals, or objects (as here, a bug). 伙 is toneless (neutral tone), not huǒ.
横着 grammar	héngzhe	'Sideways, crosswise' — 横 (horizontal) + 着 used adverbially to describe the manner of motion. Compare 竖着 (vertically/lengthwise).
底下 HSK3	dǐxia	'Underneath, below' — colloquial equivalent of the more formal 下面. 下 is toneless here (xia, not xià): 沙发底下 = 'under the sofa'.
